

This is Our Invitation to Donors

There is HUMANITY in everyone. It is important to know how and when to show HUMANITY.

Everyone will have some doubts like

Will there be a perfect justice for the help I need to do?

Will it really get where it needs to go?

Are they using up the financial resources I gave them?

Many questions arise.

Put such fears and doubts aside. Check your doubts through the **“SHANKARA BHAGAVAN HUMANITY TRUST”**. Because we are supporting this organization with the financial resources that have come through our own efforts for many years, without a donor to date. Everybody believes in the evidence that we are trying to show some of our work in the gallery, please go through it.

Our organization had to decide to increase the services of the organization so that everyone could take part as support collaborators. Because the number of people seeking help and suffering from hunger is growing with each passing day. Gone are the days of eating rice with a stomach full.

The needs, the cries of hunger and the deaths have increased and the poor are even poorer.

We can't feed all the poor people around the world but we can feed the mouths around us.

The people are waiting for food and clean water to drink; they need helping hands like you.

Come, let's stand together and let's stand in support of the struggle to eradicate hunger.

“Your” “Our”... the **“SHANKARA BHAGAVAN HUMANITY TRUST”** will always welcome every help you do for the survival of humanity.

For minds that want to help

For the hands that come forward to help.

This is our Invitation
